

## INDEX TO VOLUME 16

The star (\*) preceding the page number indicates an original article in THE ARCHIVES. No author entries are made except for original articles. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

	PAGE
Acrodynia, erythredema polyneuritis.....	353
so-called, or erythredema (Swift's disease) .....	365
Acromegaly, possible relationship between diabetes and .....	798
Alcohol, injection, effect on sympathetic nervous system .....	645
"Allo-esthesia," organic spinal hemianesthesia showing persistence of peculiar form of sensation and occurrence of phenomena of heteresthesia and.....	778
Alopecia, generalized.....	647
syphilitic, relation to neurosyphilis.....	488
Alzheimer's disease.....	351
Ameba, rôle of nucleus in cell functions of.....	799
Amnesia, dual personality apropos of.....	379
Anemia, cerebral hemorrhage in.....	386
Aneurysm, intraventricular hemorrhage.....	514
of cerebral vessels; clinical manifestations and pathology.....	*728
Angina pectoris, sympathectomy in.....	793
Angioma, multiple primary cerebral neoplasms .....	*447
Anthropometry, analysis of older anthropological records.....	802
anthropological methods in psychiatry....	802
current conceptions of bodily structure in relation to temperament and character	802
Antrum of Highmore: See Sinus, maxillary	
Arkin, H.: Unusual brachial plexus palsy	75
Arsenic poisoning, toxemia presenting unusual clinical manifestations.....	369
Artery, anterior tibial, occlusion of.....	256
Asphasia, thalamic syndrome with homonymous hemianopia and.....	528
Astereognosis .....	387
Ataxia, Friedreich's, abortive type of.....	*301
postencephalitic .....	807
Atrophy, encephalitic residual simulating progressive muscular atrophy of shoulder girdle type.....	*344
Babinski Sign: See Reflexes, plantar	
Backache, painful conditions in lumbar, lumbosacral and sacro-iliac regions....	642
Bagley, C., Jr.: Forebrain and midbrain of alligator with experimental transections of brain stem; study of electrically excitable regions.....	*154
Balado, M.: Satisfactory method for staining nerve fibers of iris.....	*442
Bassoe, P.: General paralysis treated with trypanamide; clinicopathologic report of case.....	*37
Behavior, human, research in.....	812
nature of fundamental drives.....	647
Bell, Sir Charles, work of, in relation to modern neurology .....	97
Bertrand, I.: Pathologic changes of senile type in Charcot's disease.....	*263
Bismuth: See also Neurosyphilis compounds, in antisyphilitic therapy....	646
Blindness, delusions of persecution with, (paranoid reactions resulting from)...	788
Blood, calcium and phosphorus in personality disorders; effect of ultraviolet radiation .....	*48
calcium, in thyroparathyroidectomized dogs, effect of bleeding on.....	799
pressure, control of, with hepatic extract sugar curve, in mental disease; schizophrenic groups .....	*414
Bone changes of limbs which have suffered peripheral enervation .....	640
dysostosis cleidocranialis with metabolic disturbances .....	644
BOOK REVIEWS:	
An Introduction to Objective Psychopathology; G. V. Hamilton.....	390
Anatomie Cérébrale; Noyaux Gris Centraux et la Région Mésencéphalo-sous-Optique; C. Foix and J. Nicolesco	537,674
Bipolar Theory of Living Processes; G. W. Crile .....	814
Die Cytoarchitektonik der Hirnrinde des Erwachsenen Menschen (The Cyto-Architectonics of the Cerebral Cortex of Adult Man.); C. v. Economo and G. N. Koskinas.....	674,817
Faith, Falsity and Failure of Christian Science; W. Riley, F. W. Peabody and C. E. Humiston.....	126
Handbuch der Neurologie des Ohres, Volume I; Edited by G. Alexander, O. Marburg and H. Brunner.....	680
Heredity and Environment in Development of Men; E. G. Conklin.....	130
Hysteria; E. Kretschmer.....	677
Inheritance of Acquired Characteristics; P. Kammerer .....	681
International Clinics, Volume I, series 36, 1926.....	262
Jackson, J. Hughlings: Eine Studie über Krämpfe; O. Sittig.....	394
Le Roman d'une Épidémie Parisienne. La Kleptomanie?; A. Antheaume.....	129
Le Syndrome Chiasmatique (The Chiasmal Syndrome); A. Favory.....	813
Nouveau Traité de Médecine. Pathologie du Cerveau et du Cervelet. Volume XIX; Edited by G. H. Roger, F. Widal and P. J. Teissier.....	261
Old and New Viewpoints in Psychology; K. Dunlap .....	534
Report of a Mental Health Survey of Staten Island (The Borough of Richmond), New York City, by the National Committee for Mental Hygiene, January-April, 1924 .....	392
Study of American Intelligence; C. Brigham .....	537
Ueber Genese und Behandlung der Exsudativen Paroxysmen; G. C. Bolten....	393

# INDEX TO VOLUME 16

	PAGE		PAGE
Borman M. C.: Dental sensation in syphilis of central nervous system; clinical findings in tabes dorsalis and in general paralysis .....	*629	Bunker, H. A., Jr.: Loss of weight: its importance as an early symptom in general paralysis .....	*63
Brachial Plexus, gunshot injuries of .....	104	Significance of gain in weight in malaria treatment of general paralysis .....	*329
paralysis: See Paralysis, brachial		Treatment of general paralysis by inoculation with malaria; second report....	*182
Brain: See also Forebrain; Tuber Cereum, etc.			
acute swelling of oligodendroglia; specific type of neuroglia change .....	*131	Cadwalader, W. B.: Lemniscus symptoms following epidemic encephalitis; bilateral impairment of deep sensation....	*605
aneurysms of cerebral vessels; clinical manifestations and pathology .....	*728	Cajal, Ramon Y, career of .....	*213
asymmetry of hemispheres of, in man and animals .....	92	Cancer, of throat, glossopharyngeal and cervical posterior root section for pain from .....	527
calcifying degeneration, familial .....	517	Carr, A. D.: An encephalitic residual simulating progressive muscular atrophy of shoulder girdle type .....	*344
comparative anatomy, thalamic and tectal nuclei and fiber paths in brain of American alligator .....	486	Catatonia: See Dementia Praecox	
differential water absorption by central nervous system tissue .....	790	Cerebrospinal Fluid, amount of, in hydrocephalus, method for estimation and clinical application .....	97
hemorrhage, clinical forms of, with special reference to those observed in catatonia .....	646	chemical composition of .....	86
hemorrhage, in pernicious anemia .....	386	findings in pemphigus and in dermatitis herpetiformis .....	95
hemorrhage, intraventricular .....	514	in encephalitis, atypical and masked forms of encephalitis .....	99
inflammation of central nervous system	479	intracranial pressure changes during forced drainage of central nervous system .....	*319
injury, cerebral repair after .....	500	intracranial pressure, influence of increase or diminution of, on susceptibility of animals to convulsive seizures; epilepsy	794
injury, concussion .....	667	nature of .....	244
injury, cortical lesion producing segment paresis with pain .....	529	normal, cell and albumin content of; significance of small increases in cells and albumin .....	361
lesions, lemniscus symptoms following epidemic encephalitis; bilateral impairment of deep sensation .....	*605	sugar, in encephalitis .....	234
lesions, localized cortical; limited to Broca's area; limited to motor face area .....	809	test, colloidal benzoin reaction in acute poliomyelitis .....	368
localization, central visual system; anatomic projection of retinal quadrants on striate cortex of rabbit .....	*1	Character, current conceptions of bodily structure in relation to temperament and .....	802
localization, central visual system; comparative study of form of geniculostriate visual system of mammals .....	*285	formation, endogenous and exogenous factors in .....	368
localization, central visual system; details of organization of geniculostriate system in man .....	*683	Charcot's Disease, changes of senile type in .....	*263
localization, central visual connections; general relationships between external geniculate body, optic radiation and visual cortex in man .....	*566	contribution to histochemistry and pathogenesis of .....	480
localization, dystonic-dyskinetic processes	475	Charcot Joints, hip, bilateral .....	236
localization, forebrain and midbrain of alligator with experimental transections of brain stem; electrically excitable regions .....	*154	Chickenpox myelitis .....	494
localization, visual hallucinations in organic diseases of .....	377	Cholesteatoma, cerebral .....	485
roentgenologic exploration of central nervous system with iodized oil (lipiodol) .....	*420	Chorea, intraneuronal crystals in senility, paralysis agitans and .....	645
stem, primary afferent centers of .....	256	in seventh decade with apparent recovery	383
tumor, cerebral cholesteatomas .....	485	Chung, Mon-Fah: Thrombosis of spinal vessels in sudden syphilitic paraplegia	*761
tumor, metastatic (secondary) .....	373	Cocaine, action of, during catatonic stupor	637
tumor, multiple primary cerebral neoplasms .....	*447	Coleridge and his opium habit .....	802
tumor, of infundibulo-hypophysial region, treatment .....	489	Cone, W.: Acute swelling of oligodendroglia; specific type of neuroglia change .....	*131
tumor, of 3rd ventricle with unusual clinical symptoms .....	251	Convulsions, fasting as cause of .....	102
tumor, primary neoplasm of .....	375	Cornwall, L. H.: Meningo-encephalitis due to torula .....	*167
tumor, radiotherapy and radiodiagnosis of	233	Coué's methods of self mastery .....	633
Bulbocapnine, action of, in paralysis agitans and tremor of paralysis agitans type; comparison of action of scopolamine, atropine and phenobarbital .....	*55	Craniotabes, rickets and .....	361
		Cranium, pressure in, changes during forced drainage of central nervous system .....	*319
		Dandy, W. E.: Sign and symptom of spinal cord tumors .....	*435
		Davis, L.: Studies in decerebration; labyrinth .....	*555

# INDEX TO VOLUME 16

	PAGE		PAGE
Decerebration: See also Rigidity, decerebrate		Encephalitis, epidemic—Continued	
studies in; labyrinth.....*	555	tentative therapeutics in.....	486
Delirium tremens, methods of preventing.....*	613	tonic spasms of eye muscles in.....	238
Delirium tremens, postural and righting reflexes (stellreflexe) in.....	482	Endothelioma, multiple primary cerebral neoplasms.....*	447
Dementia senilis, hereditary disposition to	782	tumor in antrum of Highmore; pneumococcus meningitis.....	660
Dementia Praecox, action of cocaine during catatonic stupor.....	637	Enuresis: See Urination, incontinence	
blood sugar curve in mental disease; schizophrenic groups.....	414	Epilepsy, familial calcifying cerebral degeneration.....	517
comparative method in psychiatry.....	483	influence of increase or diminution of intracranial pressure on susceptibility of animals to convulsive seizures.....	794
hereditary disposition to senile dementia	782	migraine and.....	82
in identical twins.....	490	pathogenesis of attacks of migraine and its relation to.....	223
language of schizophrenia.....*	395	protein sensitization in; preliminary report.....	366
morphologic study of functional psychoses	236	with convulsive movements limited to upper half of body.....	107
psychogalvanic studies in schizophrenia..*	747	Erythredema: See Acrodynia	
vasectomy and its influence upon 100 cases studied at Manhattan State Hospital.....	363	Ethyl gasoline, potential public health hazards from use of.....	362
weight of heart in schizophrenia and in other mental disorders.....	620	Exercise, hyperreflexia of lower limbs after	811
Dermatitis, in association with disease or injury of peripheral nerves.....	90	Eye, muscles, tonic spasms of, in epidemic encephalitis.....	238
Diabetes insipidus infundibulare and diabetes mellitus of tuber.....	367	Eyeballs, tremor of, during convergence	487
insipidus, of syphilitic origin.....	489	Fasting, as cause of convulsions.....	102
mellitus, possible relationship between acromegaly and.....	798	Feeble-mindedness, experiences with feeble-minded problems.....	504
Diaphragm, innervation.....	494	researches on.....	506
Diathermia in multiple sclerosis.....	122	Waverley researches in; interim report on third series of ten cases.....	505
Dropsy, intermittent.....	472	Fellowships in neuropsychiatry.....	130, 347
Dura Mater, tumor in antrum of Highmore; pneumococcus meningitis.....	660	Forebrain and midbrain of alligator with experimental transections of brain stem; electrically excitable regions.....*	154
Dysostosis cleidocranialis: See Bone; Pituitary		Forestier, J.: Roentgenologic exploration of central nervous system with iodized oil (lipiodol).....*	420
Dystonic-dyskinetic processes.....	475	Friedreich's Disease: See Ataxia, Friedreich's	
Dystrophy, infantile, rôle of hypophysis in	489	Fulstow, M.: Weight of heart in schizophrenia and in other mental disorders..*	620
Ebeling, W. W.: Blood calcium and phosphorus in personality disorders; effect of ultraviolet radiation.....	48	Gasserian Ganglion, morphology of.....	91
Echinococcosis, of vertebrae and kidney, compression myelitis secondary to.....	493	Gastric Crises: See Tabes Dorsalis	
Education, neurology and.....*	539	Geniculate Body, comparative study of form of geniculo-striate visual system of mammals.....	285
Electromyogram: See Muscle		details of organization of geniculo-striate system in man.....*	683
Emotions, effect of mental and emotional states on leukocyte count.....	235	general relationships between external geniculate body, optic radiation, and visual cortex in man.....*	566
Encephalitis: See also Meningo-encephalitis; Neuromyelo-encephalitis		Glycosuria, experimental, studies on diabetes insipidus infundibulare and diabetes mellitus of tuber.....	367
virus of; immune reactions and relation to encephalitis lethargica.....	93	Goiter, exophthalmic, hypernephroma of thyroid, with clinical picture of.....	236
Encephalitis, Epidemic, atypical and masked forms of.....	99	nutritional changes in; effect of Lugol's solution.....	643
chronic, vascular lesions in, with Parkinson's syndrome.....	240	Golgi, Camillo (1843-1926).....	650
psychoanalytic introduction to study of conduct disorders of (with outline of plan for psychosocial reconstruction)	112	Hair, studies on; hypertrichosis.....	84
sequels, ataxia.....	807	Hallucinations, acute hallucinatory psychosis.....	795
sequels, "eunuchofeminismus" with parkinsonism and psychic alterations.....	793	photographed Lilliputian.....	232
sequels, lemniscus symptoms; bilateral impairment of deep sensation.....*	605	visual, in organic diseases of brain.....	377
sequels, narcolepsy occasionally a post-encephalitic syndrome.....	239	Hassin, G. B.: Amaurotic family idiocy; late infantile type (Bielschowsky) with clinical picture of decerebrate rigidity..*	708
sequels, optic atrophy.....	530	General paralysis treated with trypanamide; clinicopathologic report of case..*	37
sequels, psychoneuroses and.....	99		
sequels, residual simulating progressive muscular atrophy, shoulder girdle type*	344		
spinal fluid sugar in.....	234		
subacute epidemic, unusually widespread disease process.....	118		

# INDEX TO VOLUME 16

	PAGE		PAGE
Hearing, touch as substitute in interpretation of controlled speech and.....	492	Kirby, G. H.: Treatment of general paralysis by inoculation with malaria; second report .....	*182
Heart, functional cardiac tests in diagnosis of psychoses .....	802	Kubie, L. S.: Intracranial pressure changes during forced drainage of central nervous system .....	*319
weight of, in schizophrenia and in other mental disorders.....	*620	Labyrinth, studies in decerebration.....	*555
Hemianesthesia, organic spinal, showing persistence of peculiar form of sensation and occurrence of phenomena of allo-esthesia and heteresthesia.....	778	Langworthy, O. R.: Forebrain and mid-brain of alligator with experimental transections of brain stem; study of electrically excitable regions.....	*154
Hemianopia, homonymous, thalamic syndrome with asphasia and.....	528	Lead poisoning, onset simulating trigeminal neuralgia .....	641
Henry, G. W.: Blood calcium and phosphorus in personality disorders; effect of ultraviolet radiation.....	*48	Left-handedness, eyedness and handedness. .	98
Herman, W.: Action of bulbocapnine in 3 cases of paralysis agitans and 1 case of tremor of paralysis agitans type; further note with comparison of action of scopolamine, atropine and phenobarbital .....	*55	Lemniscus symptoms following epidemic encephalitis; bilateral impairment of deep sensation .....	*605
Herpes, simplex, immunity in.....	102	Leukocytes, count, effect of mental and emotional states on.....	235
virus of; immune reactions and relation to encephalitis lethargica.....	93	evidence of nervous control of leukocytic activity by involuntary nervous system. .	232
zoster, ophthalmic, paralysis of oculopupillary sympathetic fibers and ophthalmic division of trigeminal nerve, preceded by; report of case.....	71	Lewin, P.: Unusual brachial plexus palsy	75
Herxheimer Reactions, so-called.....	234	Lipiodol: See Iodized Oil	
"Heteresthesia," organic spinal hemianesthesia showing persistence of peculiar form of sensation and phenomena of allo-esthesia and.....	778	Liver Extract, control of blood pressure with .....	792
Hiccup, epidemic, neuromyelo-encephalitis during and following; diverse localization of streptococci .....	*21	Lugol's Solution: See Goitre, exophthalmic	
Hydrocephalus, amount of cerebrospinal fluid in; method for estimation and clinical application .....	97	McIntyre, A. P.: Malaria inoculation in treatment of general paralysis; results in 42 cases.....	*205
Hyperalgesia: See Pain		McIntyre, H. D.: Malaria inoculation in treatment of general paralysis; results in 42 cases.....	*205
Hyperpexic action (neuropexia) on nervous diseases .....	792	McKendree, C. A.: Meningo-encephalitis due to torula.....	*167
Hypertrichosis: See Hair		Malaria, incubation period of benign tertian therapeutic: See Neurosyphilis; Paralysis, General; Sclerosis, multiple	94
Idiocy, amaurotic family; late infantile type (Bielschowsky) with clinical picture of decerebrate rigidity.....	*708	Mastoiditis, meningococcic .....	238
psychological study of nature of idiot....	661	Medulla Oblongata, anemic, excitability of. .	238
Immunity, involuntary nervous system; important factor in body's resistance....	229	Melancolia, involution, precipitating factors in .....	492
Infundibulum and tuber cinereum, functions of region of, and their relations to hypophysis .....	367	Meninges, hemorrhage, subarachnoid.....	370
Insanity, manic-depressive, constitutional psychologic factors in "functional psychoses" .....	652	hemorrhage, subdural and epidural, secondarily fatal from hemorrhage of lateral sinus following slight traumatism of neck .....	493
Iodized Oil (lipiodol), roentgenologic exploration of central nervous system with .....	*420	Meningitis: See also Pachymeningitis	
Iris, satisfactory method for staining nerve fibers of .....	*442	meningococcic, advanced; treatment by combined ventricular, cisternal and lumbar punctures .....	635
de Jong, H.: Action of bulbocapnine in 3 cases of paralysis agitans and 1 case of tremor of paralysis agitans type; further note, with comparison of action of scopolamine, atropine and phenobarbital .....	*55	meningococcic mastoiditis.....	238
Kahn Reaction, error of basing diagnosis of syphilis on.....	649	meningococcic, recovery in a 7 weeks old infant .....	648
Kasanin, J.: Blood sugar curve in mental disease; schizophrenic (dementia praecox) groups .....	*414	sympathica .....	221
Keschnner, M.: Theory of mechanism for Babinski toe phenomenon.....	*313	Meningo-encephalitis due to torula.....	*167
Kidney, function, influence on nerves in, with relation to renal sympathectomy..	230	Mental hygiene in industry.....	366
		traits, endogenous and exogenous factors in character formation.....	368
		Metabolism, basal, of some orientals.....	488
		basal, dysostosis cleidocranialis with metabolic disturbances .....	644
		of obesity; distribution of energy production after food.....	363
		Metamorphosis, insect, influenced by thyroid feeding?.....	789
		Midbrain and forebrain of alligator with experimental transections of brain stem; electrically excitable regions....	*154
		Migraine, and epilepsy.....	82
		pathogenesis of attacks of, and relation to epilepsy .....	223
		severe form of, with anatomic findings..	95

# INDEX TO VOLUME 16

	PAGE		PAGE
Monoplegia, cortical .....	808	Neuralgia, trigeminal, case of lead poisoning with onset simulating.....	641
specimens showing localized cortical lesions; limited to Broca's area; limited to motor face area.....	809	Neuritis, diagnosis of pseudo-optic neuritis .....	498
Morphine hunger and smooth muscle reaction; study of habitué.....	367	multiple, facial diplegia in.....	248
Movements, "expression movements" of mental and physical pains in body and extremities; eklysis reflex of mental pains .....	227	optic atrophy following encephalitis....	530
contralateral associated.....	253	optic, clinical research on origin of, with especial reference to its relation to multiple sclerosis.....	225
Muscle, gracilis, transplantation of, for incontinence of urine.....	368	Neurofibromatosis, Recklinghausen's disease .....	493
morphine hunger and smooth muscle reaction; study of habitué.....	367	Neuroglia, acute swelling of oligodendroglia; specific type of change.....	*131
reciprocal innervation of antagonistic muscles and coordination of movement .....	650; correction, 812	inflammation of central nervous system..	479
striated, interpretation of electromyogram of, during contractions set up by central nervous excitation.....	89	Neurology and education.....	*539
tonus, contractile and plastic factors in decerebrate rigidity; comparison of synapse-blocking action of nicotine and chloral hydrate .....	88	Neuromyelo-encephalitis during and following an epidemic of hiccup; diverse localization of streptococci.....	*21
tonus, of skeletal muscle, effect of temperature upon .....	491	Neurons, intraneuronal crystals in senility, chorea and paralysis agitans.....	645
Myelitis, compression, secondary to echinococcus disease of vertebrae and kidney .....	493	Neuropathology .....	*451
transverse, of meningitic origin, trophic ulceration following .....	254	Neuroretinitis, case of.....	112
varicella myelitis.....	494	Neurosyphilis, bismuth treatment of.....	237
Nerves, peripheral, bone changes of limbs which have suffered peripheral enervation .....	640	cerebral syphilis occurring seven months after initial lesion; therapeutic result after inoculation with malaria.....	532
peripheral, dermatitis in association with disease or injury of.....	90	neuro-recurrence; bilateral facial palsy..	105
phrenic nerve injury in new-born.....	96	syphilitic alopecia, relation to neurosyphilis .....	488
recurrent laryngeal, in dogs.....	644	treatment .....	799
renal, influence on nerves in kidney function in relation to problem of renal sympathectomy .....	230	treatment, by malaria.....	368,477
sciatic: See also Sciatica		treatment, results with tryparsamide ..	250,798
sciatic, effect of sympathetic nervous system on peripheral vascular system....	645	Nielsen, J. M.: Case of nonsyphilitic pupillary inaction associated with evidence of vegetative imbalance.....	*597
sensory, impulses from a single sensory end-organ .....	231	Nose, tumor, of nasal origin.....	228
sensory nerve endings, impulses produced by .....	231	Nutritional changes in exophthalmic goiter; effect of Lugol's solution.....	643
spinal, combined glossopharyngeal and cervical posterior root section, for pain from carcinoma of throat.....	527	Obesity, metabolism of; distribution of energy production after food.....	363
trigeminal, nonbifurcating nerve fibers of ulnar, local sweating confined to partial distribution of .....	804	OBITUARY:	
Nervous System, anatomy; neuropathology*451		Henry M. Thomas, M.D., 1861-1925..	78
comparative anatomy, correlated anatomical and physiological studies of growth of nervous system of amphibia; growth of pattern of motor mechanism of amblystoma punctatum.....	490	Oligodendroglia: See Neuroglia	
comparative anatomy and neuropathology .....	656	Orton, S. T.: Neuropathology.....	*451
effect of constitutional factors in inflammatory reactions in.....	243	Pachymeningitis, spinal hypertrophic, and medullary cavities.....	94
involuntary, evidence of nervous control of leukocytic activity by.....	232	Pain, referred, pupils in somatic and visceral disorders in association with hyperalgesia and.....	87
involuntary nervous system; important factor in body's resistance.....	229	Paralysis, agitans, action of bulbocapnine in, comparison of action of scopalamine, atropine and phenobarbital.....	*55
physiology, relations between central and peripheral coordination.....	491	agitans, intraneuronal crystals in senility, chorea and.....	645
sympathetic, nonsyphilitic pupillary inaction; evidence of vegetative imbalance*597		brachial plexus palsy.....	75
sympathetic, physiology of, in relation to certain surgical problems.....	787	bulbar, atypical, simulating aneurysm....	492
		bulbar, progressive, mechanisms of speech and deglutition in.....	360
		classification of cerebral palsies of early life .....	357
		cortical lesion producing segment paresis with pain .....	529
		facial, as manifestation of tumors of upper half of cervical spinal cord....	667
		facial, bilateral; neuro-recurrence.....	105
		facial, central and peripheral, differences in muscle contraction in.....	384
		facial diplegia in multiple neuritis.....	248
		obstetric, case of unusual brachial plexus palsy .....	75
		obstetric, phrenic nerve injury in new-born .....	96

# INDEX TO VOLUME 16

Paralysis—Continued	PAGE	Poliomyelitis—Continued	PAGE
of serratus magus, postinfectious, and ophthalmic division of trigeminal nerve, preceded by ophthalmic herpes zoster	71	chronic anterior, transitory to amyotrophic lateral sclerosis.....	796
of serratus magus, postinfectious, and isolated .....	239	electrodiagnosis and electrotherapy in paralysis following.....	98
spastic, of extremities, effect of sympathectomy on .....	790	Pollock, L. J.: Studies in decerebration; labyrinth .....	*555
Paralysis, General, clinicopathologic study of so-called "typical" laboratory observations .....	800	Potts, C. S.: Paralysis of oculopupillary sympathetic fibers and ophthalmic division of trigeminal nerve, preceded by ophthalmic herpes zoster.....	71
dental sensation in syphilis of central nervous system; clinical findings in general paralysis.....	*629	Priapism from cord lesions presumably luetic .....	365
hyperpexic action (neuropexia) on nervous diseases.....	792	Pseudosclerosis, subacute epidemic encephalitis; unusually widespread disease process .....	118
loss of weight in, importance as early symptom .....	*63	Pseudotumor spinalis.....	246
treatment, intravenous injections of bismuth .....	495	Psychoanalysis, Coué's method of self-mastery .....	633
treatment, malaria.....	*182,*205	practical value of.....	780
treatment, malaria, in "institution" paresis .....	496	psychoanalytic introduction to study of conduct disorders of lethargic encephalitis .....	112
treatment, malaria, significance of gain in weight in.....	*329	psychological study of nature of idiot..	661
treatment, sodoku.....	791	Psychiatry, antropological methods in.....	802
treatment, tryparsamide.....	*37	comparative method in.....	483
tremor of eyeballs during convergence..	487	methods of preventing delinquency.....	*613
Paranoid Reactions, resulting from blindness, observations concerning delusions of persecution among blind.....	788	Psychoneuroses, characteristics of neurotically predisposed.....	648
Paraplegia, compression, due to voluminous angioma of spinal dura mater; medullary compression due to pathologic vascular processes.....	355	concussion of brain.....	667
syphilitic, sudden, thrombosis of spinal vessels in.....	*761	epidemic encephalitis sequelae and.....	99
Parathyroid, effect of bleeding on serum calcium of thyroparathyroidectomized dogs .....	799	Psychoses, acute hallucinatory.....	795
Parker, H. L.: Aneurysms of cerebral vessels; clinical manifestations and pathology .....	*728	diagnosis, functional cardiac tests in ..	802
Pemphigus, chronic, postmortem findings in spinal cord.....	495	functional, morphologic study of.....	236
microscopic condition of spinal cord in ..	101	"functional psychoses," constitutional psychologic factors in; manic-depressive insanity .....	652
Penfield, W.: Acute swelling of oligodendroglia; specific type of neuroglia change .....	*131	in girl aged 6 years.....	103
Career of Ramón Y Cajal.....	*213	tabetic, clinical manifestations and pathologic histology of.....	358
Pentz, W. R.: Dental sensation in syphilis of central nervous system; clinical findings in tabes dorsalis and in general paralysis .....	*629	weight of heart in schizophrenia and in other mental disorders.....	*620
Personality, theory of.....	648	Pupils, in somatic and visceral disorders in association with referred pain and hyperalgesia .....	87
disorders, blood calcium and phosphorus in; effect of ultraviolet radiation.....	*48	non-syphilitic pupillary inaction associated with evidence of vegetative imbalance*	597
dual, apropos of case of amnesia, with analysis .....	379	Putnam, I. K.: Studies on central visual system; anatomic projection of retinal quadrants on striate cortex of rabbits ..	*1
Petrosphenoid, tumor, of nasal origin....	228	Putnam, T. J.: Studies on central visual system; anatomic projection of retinal quadrants on striate cortex of rabbit..	*1
Physician, dynamics of relation of patient and .....	491	Studies on central visual system; comparative study of form of geniculostriate visual system of mammals..	*285
Pituitary, functional relationship between tuber centers and.....	495	Studies on central visual system; details of organization of geniculostriate system in man.....	*683
functions of region of infundibulum and tuber cinereum and their relations to pituitary dysostosis.....	515	Studies on central visual connections; general relationships between external geniculate body, optic radiation and visual cortex in man; report of 2 cases*	566
rôle of, in infantile dystrophies.....	489	Rabiner, A. M.: Theory of mechanism for Babinski toe phenomenon.....	*313
thyroid opotherapy in dyspituitarism....	495	Racial physiology, of some orientals.....	488
tumor, uncinate syndrome.....	73	Radiotherapy and radiodiagnosis of cerebral tumors .....	233
tumors of infundibulo-hypophysial region, treatment .....	489	Recklinhausen's disease: See Neurofibromatosis	
Poliomyelitis, acute, colloidal benzoin reaction in.....	368	Reflexes, eklysis reflex of mental pains; study of "expression movements" of mental and physical pains in body and extremities .....	227

# INDEX TO VOLUME 16

Reflexes—Continued	PAGE
hyperreflexia of lower limbs after exercise .....	811
patellar, effect of temperature upon tonus of skeletal muscle .....	491
patellar, factors influencing knee-jerk..	489
peculiar reflex phenomenon.....	100
plantar, theory of mechanism for Babinski toe phenomenon.....	*313
postural and righting reflexes (stellreflexe) in delirium tremens.....	482
psychogalvanic studies in schizophrenia*	747
Retina, anatomic projection of retinal quadrants on striate cortex of rabbit..	*1
details of organization of geniculo-striate system in man.....	*683
general relationships between external geniculate body, optic radiation and visual cortex in man.....	*566
Rickets, clinical observations on craniotabes and .....	361
Rigidity, decerebrate, late infantile type (Bielschowsky) with clinical picture of; amaurotic family idiocy.....	*708
Riley, H. A.: Abortive type of Friedreich's disease .....	*301
Rombold, C. R.: Abortive type of Friedreich's disease .....	*301
Rosenow, E. C.: Neuromyelo-encephalitis during and following an epidemic of hiccup; diverse localization of streptococci .....	*21
Sacro-Iliac Region, painful conditions in lumbar, lumbosacral regions and.....	642
Sacrovertebral Angle, measurement, and clinical significance of variations....	647
Sands, I. J.: Multiple primary cerebral neoplasms .....	*447
Schizophrenia: See Dementia Praecox	
Sciatica .....	655
Scleroderma, diffuse scleroderma presenting unusual features.....	239
intravenous injections of salt solution in treatment of.....	785
Sclerosis: See also Charcot's Disease	
amyotrophic lateral, case of chronic anterior poliomyelitis transitory to.....	796
multiple, clinical research on origin of neuritis of optical nerve with especial reference to.....	225
multiple, diathermia in treatment of....	122
multiple, lemniscus symptoms following epidemic encephalitis; bilateral impairment of deep sensation.....	*605
multiple, malarial treatment of.....	772
Sensibility, organization of.....	658
Sex, dependence of secondary sex characters on testicular hormones in Lebistes reticulatus .....	797
Sexuality, conception of.....	639,640
symposium on .....	775,776,777
Sicard, J. A.: Roentgenologic exploration of central nervous system with iodized oil (lipiodol) .....	*420
Sinus, maxillary, tumor in antrum of Highmore; pneumococcus meningitis.....	660
subdural and epidural hemorrhage, secondarily fatal from hemorrhage of lateral sinus following traumatism of neck .....	493
Sleep, narcolepsy occasionally a postencephalitic syndrome.....	239
research on .....	347

## SOCIETY TRANSACTIONS:

	PAGE
Boston Society of Neurology and Psychiatry .....	240, 504, 650
Chicago Neurological Society.....	103,246,496
New York Neurological Society	112,369,514,660
Philadelphia Neurological Society .....	105,251,383,522,804
Philadelphia Psychiatric Society.....	377,800
Sodoku: See Paralysis, General, treatment	
Sole patterns of twins.....	796
Spasmophilia, blood calcium in.....	239
inorganic constituents of blood and cerebrospinal fluid.....	235
Spasticity, effect of cordotomy on, and reactions of defense.....	522
Spiller, W. G.: Uncinate syndrome.....	73
Spinal Canal, roentgenologic exploration of central nervous system with iodized oil (lipiodol) .....	*420
Spinal Cord, compression paraplegia due to a voluminous angiocoele of spinal dura mater; study of medullary compressions due to vascular processes..	355
inflammation: See Myelitis	
microscopic condition of, in pemphigus	101
multiple lesions of.....	384
postmortem findings, in chronic pemphigus .....	495
priapism from cord lesions presumably luetic .....	365
surgery, effect of cordotomy on spasticity, and reactions of defense.....	522
tumors .....	364
tumor of upper half of cervical spinal cord; facial paresis as manifestation of	667
tumor, pseudotumor spinalis.....	246
tumor, sign and symptom of.....	*435
Spine, sacrovertebral angle, measurement, and clinical significance of variations	647
Staining, nerve fibers of iris, satisfactory method for.....	*442
Stegman, L. V.: Case of nonsyphilitic pupillary inaction associated with evidence of vegetative imbalance.....	*597
Streptococcus, neuromyelo-encephalitis during and following an epidemic of hiccup; diverse localization of streptococci	*21
Strontium: See Tetany	
Subarachnoid hemorrhage: See Meninges, hemorrhage	
Suprasellar cyst, successfully operated on..	502
Sweating, local, confined to partial distribution of ulnar nerve.....	804
Sympathectomy, effect of, on spastic paralysis of extremities.....	790
in angina pectoris.....	793
periarterial .....	784
periarterial, effect of sympathetic nervous system on peripheral vascular system	645
treatment of tropic and gangrenous affections of limbs by resection of cervico-thoracic and lumbosacral sympathetic chains .....	638
Syphilis: See also Neurosyphilis	
error of basing diagnosis on Kahn reaction alone .....	649
priapism from cord lesions presumably luetic .....	365
so-called Herxheimer reactions.....	234
treatment, bismuth compounds in anti-syphilitic therapy .....	646

# INDEX TO VOLUME 16

	PAGE		PAGE
Syphilis—Continued		Trauma, relation of, to neuropsychiatric conditions as observed in compensation court	109
unilateral wrist drop due to.....	238	Truitt, R. P.: Methods of preventing delinquency	*613
value of nonspecific protein therapy in	364	Tryparsamide: See Neurosyphilis; Paralysis, General	
Syringomyelia, occurrence of fits in.....	649	Tuber cinereum, and infundibulum, functions of; their relations to hypophysis	367
Syz, H. C.: Psychogalvanic studies in schizophrenia	*747	functional relationship between pituitary body and.....	495
Tabes Dorsalis, clinical manifestations and pathologic histology of psychoses of...	358	Tuberculosis, experimental, of mammalian tissue in culture.....	348
dental sensation in syphilis of central nervous system; clinical findings in tabes	*629	Twins, identical, dementia praecox in....	490
operative treatment of gastric crises..	101,794	sole patterns of.....	796
Taste buds, regeneration of gustatory apparatus in rat	495	Ulceration, trophic, following transverse myelitis of meningeal origin.....	254
Teeth, dental sensation in syphilis of central nervous system; clinical findings in tabes dorsalis and in general paralysis	*629	Ultraviolet Rays, blood calcium and phosphorus in personality disorders; effect of ultraviolet radiation.....	*48
methods of testing sensibility of; investigation of sensitivity of healthy dentine and intact teeth to warmth.....	795	Uncinate syndrome.....	73
Temperature, effect of, upon tonus of skeletal muscle.....	491	Urination, incontinence, enuresis as a psychological problem.....	237
Testicle, dependence of secondary sex characters on testicular hormones in <i>Lebistes reticulatus</i> .....	797	transplantation of gracilis muscle for incontinence of urine.....	368
Tetany, prevention and cure of, by oral administration of strontium.....	797	Van Bogaert, L.: Pathologic changes of senile type in Charcot's disease.....	*263
Thalamic syndrome, with homonymous hemianopia and aphasia.....	528	Vision, eyedness and handedness.....	98
Thrombosis of sigmoid sinus following skull fracture	100	suprasellar cyst successfully operated on	502
of spinal vessels in sudden syphilitic paraplegia	*761	Visual System, central, studies on; anatomic projection of retinal quadrants on striate cortex of rabbit.....	*1
Thymus, quantitative measurements of excitability of central nervous system after thyroidectomy and thymectomy..	484	central, studies on; comparative study of form of geniculo-striate visual system of mammals.....	*285
Thyroid, effect of thyroidectomy on some unconditioned responses of sheep and goat	798	central, studies on; details of organization of geniculo-striate system in man	*683
hypernephroma of, with clinical picture of exophthalmic goiter.....	236	central, studies on; general relationships between external geniculate body, optic radiation and visual cortex in man..	*566
is insect metamorphosis influenced by thyroid feeding?.....	789	Vocational Guidance, psychiatric phases in	102
method of palpating the lobes of.....	101	Water, absorption, differential, by central nervous system tissue.....	790
quantitative measurements of excitability of central nervous system after thyroidectomy and thymectomy.....	484	Weight, loss of; its importance as early symptom in general paralysis.....	*63
therapy, in dyspituitarism.....	495	gain in, significance of, in malaria treatment of general paralysis.....	*329
Tilney, F.: Neurology and education.....	*539	White, W. A.: Language of schizophrenia*	395
Tissue, tuberculosis of mammalian tissue in culture	348	Workmen's Compensation, relation of trauma to neuropsychiatric conditions as observed in compensation court....	109
Torula, meningo-encephalitis due to.....	*167	Wrist-drop, unilateral, due to syphilis....	238
Touch, as substitute in interpretation of hearing and controlled speech.....	492
